

## HAGGARD TELLS HIS STORY TO THE JURY

**Declares He Believed Ben Good Had Wrecked His Home and He Couldn't Stand It Longer**

(Special to Daily Register)  
Winchester, Ky., Sept. 24.—Rodney Haggard took the stand in his own defense today in the trial in which he is charged with the murder of Ben Good.

Following the outline of his defense as presented by his chief attorney, Judge J. M. Benton, Haggard told of finding a note that his wife had written, of the blotter with Good's name showing on it. He said that he believed Good had wrecked his home and that he had just gotten to a point that he could stand it no longer. He said that he had tried to avoid Good, but when he did run into him shot him.

Winchester, Ky., Sept. 24.—The jury trying Rodney Haggard for killing Ben Good is composed of the following: Ernest R. Allen, farmer; John Turpin farmer; Jeff Day, merchant; Shelby Rupard, farmer; Alvin Pasley, farmer; L. T. Tipton, farmer; Luther Watts, farmer; Charles Hagan, proprietor of machine shop; Walter E. Heflin, farmer; Holt Everman, farmer; J. T. Corey, farmer; Thomas Reeves, farmer.

The defendant entered a plea of not guilty.

The case for the commonwealth was stated by H. H. Moore, county attorney. He related the circumstances of the killing. He said Ben Good had been away for ten days on a vacation and returned on the day he was killed.

The defense failed to make a statement.

Coroner A. M. Thacker was the first witness, and described the nature of the wounds on Good's body.

Dr. Howard Lyon testified that he first saw Good on Fairfax street, after the shooting, just around the corner from the confectionery, and that he told the boys holding the wounded man to take the patient to his office. Dr. Lyon described the nature of the wounds.

Dr. Lyon said that as Good was being carried to his office he noticed his coat was on fire near where the wounds in the body were located. Dr. Lyon identified the clothing worn by Good at the time of the shooting, and showed that they were powder-burned. The patient died shortly after midnight.

Dr. E. P. Guerrant described the wounds, and said that Good died as the result of a lacerated artery from the bullet wounds. Dr. Guerrant said Good's upper lip was severed. He (Dr. Guerrant) took one stitch to close the lacerated lip.

Dr. Lyon was recalled and told of the lip wound, which he said was half an inch in length.

Dr. Lyon said he saw no weapon on Good. He said he did not examine Good's trousers.

Cross-examined, Dr. Lyon said Good was rational after the shooting.

Glenmore Ecton, who works in the confectionery, said at about 7:15 o'clock Haggard was in the store and bought a cigar, and went out. A little later he was attracted by the sound of a blow, and as he looked through the screen door, he saw Haggard standing over Good and saw the flash of three shots.

Earlier in the evening about 25 minutes before 7 o'clock, the witness said, Good came into the store, drank a coca-cola, and ordered a sandwich wrapped up, saying he would call for it later. Good went to the phone. Haggard came in and ordered a lunch. Good went out, saying: "I'll be back later after my sandwich." The witness said the men did not speak. Haggard finished his lunch, paid for it and bought a cigar. Later, about 5 minutes before the shooting, Haggard returned and bought a second cigar. Just after Haggard left, the shooting occurred. After the shooting witness saw Good get to his feet and stagger around the corner, clutching to his side and saying "Oh!"

On cross-examination, Ecton said Haggard had lunch at the Wheeler and Renaker place frequently. He said Good went to the phone after Haggard came in the store. He said that Haggard left the store, he turned to the left.

Virgil Lary stated that Clarence Bloomfield and Ben Good were seated in an automobile in front of the Wheeler and Renaker confectionery store on Main street at about 7:15 o'clock Friday, August 27th—Good called to him (the witness). Up to that time he had not seen Haggard. The car was facing north. He (Lary) was standing with his foot upon the running board, about 10 minutes and invited the boys to have a drink with him.

Good got out of the car on the side next to the confectionery and Bloomfield on the other side. Lary and Good approached the door of the confectionery. Haggard was standing there, and struck Good, knocking him across the pavement four or five feet, where he landed on his back, Lary said.

According to Lary, Good raised his foot and kicked at Haggard to protect himself; Haggard took hold of Good's foot; Lary thought he meant to strike Good again and he (Lary) seized him from the rear, whereupon Haggard fired the shots that struck Good, the witness said.

Lary said it appeared that Haggard struck the first blow with his fist, as he saw no gun. He heard no words prior to the shooting, and was by the side of Good, and thought he would have heard them, had any been spoken. After the shooting, the witness said, Haggard asked him "What did you bring him up here in my face for?" After the shooting while Lary was hold of Haggard, Good arose to his feet, staggered around the corner and fell, Lary testified.

Shortly after the shooting Lary saw Haggard walking north on Main street at a normal gait. On cross-examination witness said he first saw Haggard when the blow was struck.

When Good fell, his head was toward the street and his feet somewhat towards the store. Witness pleaded with Haggard that "he did not want to do that."

Witness was asked if he had not stated after the shooting that it was a "case of the unwritten law," but an objection by the testimony of Bloomfield was in substance the same as that of Lary. He had seen Haggard near the confectionery, but thought nothing of it. He was alone in the car, when joined by Good at about 6:45, and they had been in the car about thirty minutes before Lary invited them to take a drink with him.

When Good and Lary started toward the confectionery, he (Bloomfield) getting out on the other side, hailed James Allen, who was passing, to tell him he was wanted on the phone, and the first he knew of the trouble was when he had his foot on the first step to ascend from the street to the sidewalk and saw Good sprawled on the ground.

The witness said Good's head was towards the store and his feet towards the street.

The car was a Buick truck owned by Bronston McCord. Witness said Good did not say anything about Haggard while they were in the car.

After the shooting, witness said he stood there "dumb-founded" and was joined by Lary and they walked diagonally across the street. They then crossed the street to the Clark County National Bank and sat on a bench about 10 or 15 minutes. They did not go to the side of Good as soon as he was shot. Some other boys had charge of Good.

After leaving the Clark County Bank bench, he (witness) and Lary walked to the confectionery corner and then went to Dr. Lyon's office, but could not get in.

Witness, in answer to a question of defendant's lawyer, denied that he and Lary were following Haggard down the street after the shooting.

At the completion of Bloomfield's testimony the court recessed.

Judge W. R. Shackelford announced that night sessions would be held during the entire trial, in order to expedite the case.

On motion of the commonwealth the jury, Judge Shackelford, lawyers and the defendant visited the scene of the killing in front of Renaker & Wheeler's confectionery.

Miss Bess Pelley, head nurse at the hospital, said the patient, Ben Good, was brought to the hospital at 7:50 o'clock. Miss Pelley searched the clothing and found a watch and pocketbook, but no

weapons.

The commonwealth rested and Judge Benton made the statement for the defense.

### The Defense

Judge Benton said only a "sketch" had been presented so far, comparing the evidence of the prosecution with an artist's work, who made sketches with a pencil and left only an outline of the real picture. Judge Benton charged that Ben Good "had a reputation for popularity among young married women of which he was rather proud."

The speaker said the fact that Rodney Haggard's father in 1901 took his own life would have a significance in the case.

He said that Rodney Haggard was left fatherless at 12 years of age, that he became an industrious and prosperous young lawyer. He married Nancy Mullins about four and one-half years ago lived happily until about the last of April, 1920.

Judge Benton said Haggard (his home broken up) had gone to a restaurant to get a meal. He said after Haggard ate his lunch he went into the pool room and read the evening paper and later returned and bought another cigar and started to his rooms when the shooting occurred.

Later, in May, when Haggard returned from Lexington he found a note on the door saying she (Mrs. Haggard) had gone to the tent show with Mr. and Mrs. Hunt Hadley. Haggard went to the show and saw her seated with Ben Good.

Judge Benton said in June when Rodney was away from home Ben Good was seen by Mr. and Mrs. Charles Long and Mrs. Dallas Lawrence to go up steps leading to the Haggard apartments. He stayed there at least 15 to 20 minutes.

Judge Benton said Haggard found fragments of a note in the handwriting of his wife with the words, "Say, Kid, leave the children with Mrs. Lockane and come down to Polly's. N. S. and B. G. will be there, and I promised to have you there at least 10 minutes."

Judge Benton said these initials referred to Nelson Strode and Ben Good.

He said Haggard found on a blotter, "Mr. Ben Good, City." Another note read, "Who taught you how to write such nice letters and say the right thing to please the feminine mind?"

Haggard then sent his wife's trunk to her father's home.

Benton said, Nelson Strode told Rodney Haggard that he had seen his (Rodney's) wife in company with Good had told him (Strode) that he had walked with Mrs. Haggard a number of times.

Judge Benton said on the day before the tragedy, Mrs. Haggard had confessed to her husband that "she had done wrong" and asked for his forgiveness.

He told her her conduct forbade forgiveness, that "his home was broken up and his baby disgraced."

During the speech of Judge Benton the defendant broke down for the first time and wept quietly.

Just before the shooting, while the two men were in the restaurant, Good had one hand in his pocket and Haggard believed he meant to attack him; that Good "sneered" at Haggard as he went out, Judge Benton said.

Benton said the defendant was not standing on "any unwritten law," but that Haggard's mind was in such a state that the written law would justify the shooting; that Haggard was a "proud and high spirited young man" and that he could not help but kill him.

After Judge Benton closed the statement for the defense, Judge Shackelford announced that Benton, being the only lawyer for the defense who was sufficiently familiar with the defendant's testimony, to examine him, was physically exhausted, the defendant would not be put on the stand until court was resumed on Friday morning.

### HOMING PIGEONS HERE READY FOR BIG RACE

The carrier or homing pigeons which are to participate in the big race in which more than 5,000 birds will try Saturday morning, have arrived in Richmond and are to be seen in the window of the Perry and Son drug store. They will be liberated Saturday morning at 10 o'clock and it is expected average a mile a minute in covering the distance to their home roost in St. Louis.

The feasibility of "harnessing" the Ohio river falls at Louisville, in order to gain more power, is being discussed.

### WEATHER FOR KENTUCKY

Partly cloudy with probable occasional showers tonight and Saturday; not much change in temperature.

### TODAY'S LIVESTOCK MARKETS

Cincinnati, Ohio, Sept. 24.—Packers lower; \$17.50; others steady; cattle slow; lower; lambs steady.  
Louisville, Sept. 24.—Cattle 400; dull; hogs 1,500; active; sheep 800; steady; all unchanged.

### KENTUCKY OFFERS \$75,000 FOR BIG RACE

Lexington, Ky., Sept. 24.—For a three-cornered race between Man o' War, three-year-old; Sir Barton, 4, and Exterminator, 5, General Manager Matt J. Winn, of the Kentuckyockey Club, last night offered \$75,000 and a gold cup to host \$5,000.

The owners of the respective horses are to agree upon the conditions with the stipulation that the distance is to be at least one mile and a quarter; that it be run in Kentucky, and if the owners agree to race at Latonia, that the date be close enough to the decision of the Latonia Championship to enable visitors from afar to see both events. There is also the proviso that if the horses meet at Kenilworth the offer is void.

The race would not be wanted in Kentucky if Man o' War and Sir Barton meet in Canada, but Manager Winn is sanguine that Kenilworth's offer of \$50,000 has not been accepted, for he says he was assured by Guy Bidwell, trainer of Sir Barton, when he (Winn) began negotiations that he would have the last say in any competition that might develop for the great match.

### MORE RAIN SPELLS, TOBACCO DAMAGE

The continued rain of Friday is said to have marked practically the close of the late tobacco, since it will not pay to handle much of it, as a result of the additional work necessitated after the weed has been again subjected to saturation.

Some have failed to cut their later tobacco and are taking a chance on its being ripe enough later on, should it escape the frost which is bound to come sooner or later. However, there is some on sticks, said to represent a large percentage, as a result of the recent fair weather, which will be greatly damaged by the rain of Friday. Indications are that the crop for this year is pretty well represented by the quantity now in the shed.

In this case, there will be a decided decrease in the output, since there is much standing besides what is stacked in the fields. Some farmers are preparing to sow turnip seed on the ground vacated by the tobacco, saying they will realize a sure crop of turnips and a little gain for the crop, which needs no attention after being sowed until time for harvesting.

### VETS FROM AFAR AT LEGION MEETING

(By Associated Press)  
Cleveland, Ohio, Sept. 24.—The American Legion convention here on September 27-29 is to be an international affair.

Paris, Coblenz, the Canal zone, the Philippine Islands, Hawaii and Alaska, where American soldiers are stationed, are to be represented in the parade which will open the convention and in the sessions where the future policy of the legion and the questions which confront it are to be fought out.

Although Marshal Foch, who was invited as an honor guest with Admiral Beatty, commander of the allied navies at the close of the war, will not be able to attend, he will have a representative here General Fayolle.

Admiral Grant of the British grand fleet will be the personal representative of Admiral Beatty, Bascom Little, chairman of the distinguished visitors' committee of the legion, was informed in a communication from England.

Many other distinguished men of the World War will attend the convention.

## JOHN KEETON SLAYS ROBERT POWELL

**Tragedy At Carnival Grounds Said To Be Sequel To Domestic Troubles**

John Keeton, apparently infuriated at meeting Robert Powell, 28, strolling with Mrs. Keeton thru the carnival grounds at the Deatherage lot, Second street, Thursday night shortly before 8 o'clock, startled those nearby by drawing a pistol and shooting Powell. The latter, bystanders assert, turned to run in an effort to get away. Keeton is said to have advanced toward him and fired at him, the shot taking effect in his back and he dropped. Powell was unable to get up, and died where he fell a few minutes later.

Keeton and his wife left the grounds immediately. Information was sent to Chief of Police Claude Devore. The latter was soon upon the scene, but found that the tragedy took place outside the city limits, thereupon rendering the apprehension of Keeton the duty of the sheriff, if the gun-user was still there. It was learned that Keeton started towards the city and Chief of Police Devore soon had a cordon of police guarding all points of egress from the city, but Keeton went from Second street direct to the county jail, where he gave himself up.

"I guess you might as well put me in, for I did it," Keeton said, according to Jailer Wm. Burgess, who was present when the man arrived.

"Did what?" queried the jailer, who had not heard of the shooting.

"I shot a man; it was my duty," Keeton is said to have replied, as he was taken to a cell. He talked no more of the tragedy except to state he did not know how bad Powell was hurt, when asked by the jailer if he had killed him. Keeton later said that Powell had struck him in the face.

There was considerable commotion on the carnival grounds, when the tragedy took place, a large crowd having assembled to witness the usual parade into the grounds and to the show entrance.

While on the carnival grounds, Chief Devore took the names of a number of eye-witnesses to the tragedy. Meanwhile Powell was breathing his last. Coroner Muncy was informed, and after some time the body was removed to the Muncy undertaking establishment.

Mrs. Keeton fell in a faint at Main and Second streets, and was revived after some time, a physician being summoned to her aid. The woman created a furore in the up-town streets by her crying, and it was some time before the details of the tragedy were obtainable. She approached a physician and hurriedly informed him of the tragedy, beseeching him to hurry to the carnival grounds and do what he could for the injured man, stating she would pay the bill.

News of the shooting soon reached the city and was the topic of conversation for some time. It developed that upon the arrival of the physician at the show grounds, Powell had died. Coroner Muncy, who had been summoned, secured testimony from a number of witnesses after which he had the body removed.

When news reached Mrs. Powell aged mother of the murdered man she fainted, and it was several hours before she could be revived. She is in advanced age, and the dead man was her only support and relative, according to neighbors. The condition of Mrs. Powell Friday morning was still serious. She insisted that the body of her son be brought home, which was done Friday morning.

Powell, who was employed as fireman on the concrete mixer on the city streets, was an ex-service man, said to have fought with valor. He had been a resident of Richmond most of his life. He has had trouble before as a result of alleged attentions paid Mrs. Keeton, and was placed under a peace bond not long ago as a result. Keeton, who is well known about the city, has been employed on farms near the city for some time. He has been separated from his wife for a period of several months.

Keeton, who is 40 years of age, tried, it is claimed, to have a num-

ber of men placed under peace bond as a result of their alleged attentions to his wife. Mrs. Powell, when seen later, would have nothing to say regarding the tragedy, apparently suffering an acute attack of remorse. The funeral of Powell has not been arranged.

## POSSE ON TRAIL OF BUFORD MUNDY

The vicinity of Hutchinson and localities near Paris, were searched Thursday by an armed posse of farmers in quest of Buford Mundy, mulatto, charged with having attacked Mrs. Charles Sowers, near Valley View, some time ago. Mundy is said to have been recognized by another negro as he was issuing from a corn field and the residents were notified. The search failed to reveal him however, later in the day the negro's whereabouts were reported in Fayette county, and another posse started out from Lexington. Mundy left this part of the country after the alleged assault. A posse missed him by a small margin, when it is claimed he passed west of the city going north. Mrs. Sowers, who was in a critical condition for some time, has recovered from the effects of the attack, which rendered her unconscious for a period of more than four hours.

## MURDER MAY RESULT FROM RECENT FIGHT

The condition of Eva Chenauf, assaulted Wednesday night during a troublesome scene in the east end and participated in by a number of colored men and women, is slightly improved at the Pattie A. Clay hospital. Should the woman recover sufficiently to tell it, she will be pressed for particulars of the incident, which is reported to have been very exciting for some time.

The woman was struck in the head with a hammer and Drs. Jasper and O. F. Hume extracted a quantity of brain matter, the skull having been crushed. She has not been able to state who assaulted her. However, a number of colored men have been placed in custody and are being held pending the outcome of the woman's injuries. Chief of Police Devore is of opinion that a number of other persons were hurt who were not sufficiently injured to be taken to the hospital, and a thorough investigation will be made if the hospital patient recovers. This, it is held by attending physicians, is probable.

## \$30,000 RAISED BY ODD FELLOWS

Approximately 60 per cent or about \$30,000 of the \$500,000 endowment fund being raised by the Odd Fellows of Kentucky for the Odd Fellows' Home at Lexington, has been pledged, according to figures given out at the office of Grand Secretary R. G. Elliott.

One of the largest amounts reported from any of the Central Kentucky lodges is that from Bourbon Lodge of Paris, which has raised a total of \$11,010 in cash and pledges, according to one of the Paris newspapers. This sum, however, has not been officially reported to the grand secretary's office.

### COHAN AND TENNES LOST ON SERIES, SAYS REPORT

Chicago, Sept. 24.—The Cook county grand jury, it is understood, is investigating the report that George M. Cohan, actor, and Mont Tennes, of Chicago, lost a large sum on a bet on last year's world series. Cohan's losses are placed at \$30,000 and Tennes' at \$80,000.

Charles Comiskey, White Sox owner issued a statement today, declaring "If any of my players are not honest I'll fire them, no matter who they are. If I can't get honest players to fill their places, I'll close my park."

Meanwhile another angle of the case, which involves the alleged "throwing" of base ball games by dishonest players, developed at Cleveland, where Ban Johnson is reported as saying rumors had reached him that a syndicate of gamblers which it is charged bought "last year's" world series for \$100,000 to five White Sox players, now threatens to expose the plot if the Chicago team wins the league pennant.

The Franklin Automobile Company is said to have cut prices 15 to 21 per cent.

## MRS. OLDHAM SPEAKS TO MADISON WOMEN

**Urges Mothers To Vote Democratic For League To Keep Sons From More War**

A large and appreciative audience heard Mrs. Alice Bronston Oldham, of Lexington, make her first speech in the present campaign at the court house Thursday night. Mrs. Oldham is the sister of Hon. C. J. Bronston and as a Democrat and public speaker she shows much of the eloquence and ability of her distinguished brother.

The Democratic women here showed their appreciation by filling the court house and furnishing Mrs. Oldham a splendid audience, though the fact that she was to speak was not known until late in the afternoon of Thursday.

Mrs. Oldham will speak at Newby Friday afternoon and at Forest Hill Friday night, and before the Ladies' Democratic Club at their new headquarters in the Masonic Temple building, Saturday afternoon at 1:30.

Mrs. Oldham will make many speeches throughout the state during the present campaign. The Madison county women were especially pleased to have her come to them first. She was introduced by Judge J. C. Chenauf, county chairman of the Democratic campaign.

### MAY ASK TO HAVE FUTURE IMMIGRANTS SIFTED

(By Associated Press)  
Washington, Sept. 24.—Reports to the State Department from the immigration authorities may result in instructions to American Consuls in Europe to exercise greater care in sifting out undesirable among immigrants. The stream of immigrants is increasing and carrying a far greater number of Europe's shiftless than before the war. It is said the greater part are attempting to escape war in their own country. The latest reports show 3,000 arrive weekly at Ellis Island.

## SWINEBROAD'S JERSEY SALE ON SATURDAY

On account of other business interests, Col. G. B. Swinebroad, the widely known real estate man of Lancaster, will sell at auction Saturday, September 25th, his entire herd of 40 fine registered Jerseys at Lancaster in Garrard county. Jersey cattle breeding is a hobby of Col. Swinebroad and for twenty years he has taken pride in keeping the best. His present herd is the result of years of careful selection and breeding and this is an opportunity seldom offered to procure heavy milkers—rich in butter fat and of a true type. As the entire herd will be sold a chance will be given prospective buyers to get foundation stock. Among them are 14 cows, 18 heifers and 8 bulls.

Dairy cows, it is said, pay better than growing tobacco, and it is hoped that farmers of this section will not let buyers out of the state get these fine Jerseys of Col. Swinebroad. The only reason he is selling them is because of business interests which prevent his giving personal attention to them.

A lot of mules and other stock will be sold in the forenoon and the Jerseys sold just after lunch. Don't forget this sale. Be at Lancaster next Saturday, September 25.

(Lancaster Record)

The big Jersey dispersal sale of G. B. Swinebroad will take place at his residence on the Danville pike next Saturday at noon.

At 11:30 lunch will be served and the sale will start promptly afterwards.

Forty head consisting of his entire herd, will be sold to the highest and best bidder. This herd has a national reputation and many from a distance are expected to attend.

Our Garrard county people should not miss the opportunity which will be offered them at this sale, to buy some of the finest Jerseys in Kentucky. We all know that for twenty years Mr. Swinebroad has owned the best Jerseys in the county, and we should not let buyers from other states take these cows and heifers from us.

Dairy cows are getting scarce and if the young bulls and the cows and heifers of Swinebroad's herd were scattered over this county it would be the best thing that ever happened to the stock and dairy interests of this community.

#### COX SPEAKS IN KY. IN OCTOBER

New York, Sept. 24.—Instead of going direct from Kansas City to Dayton, Governor Cox, Democratic presidential candidate, will leave Kansas City October 2 for Fremont, Ohio, and Toledo, where he will make day and night speeches October 4. This change in the governor's speaking itinerary was announced at Democratic national headquarters here on Thursday.

Governor Cox will rest October 5, 6 and 7 and then start on the last of his tour, October 8, through the mid-

dle west and east. The first speech in the "second lap" will be somewhere in Kentucky.

Senator Pat Harrison, of Mississippi, chairman of the Democratic National Speakers' bureau, announced that Governor Cox had made a request to be allowed to make one speech in Tennessee because of his "great desire to compliment the south and congratulate Tennessee for being the 36th state to ratify the woman suffrage amendment to the constitution."

### WHERE PRICE CUT CREDIT IS NOW DUE

(By Associated Press)  
Newport, R. I., Sept. 24.—George White, chairman of the Democratic National Committee, in a statement made here today, declared the Democrats awaited Harding's acknowledgment of the Democratic administration, which deserves credit for the cut in commodity prices throughout the country. He said the newspapers today carried news of prices coming down. He asserted Harding and the Republican orators were "unanimous in the charge that the administration was responsible for the high cost of living and failing to check its advance. By the same reason, since the administration is still in power, the Democrats must be responsible for the drop."

## ASK WAGE INCREASE, WORKMEN CHANGED

There was little time lost when a number of colored workmen engaged in crushing stone for the city streets struck for an increase of wages, they demanding 70 cents per hour, an advance of 10 cents per hour over what they had been receiving. They were let go and the street men transferred to the quarry, where the force was doubled and a night and day shift placed at work. The concrete men, who formed a part of the new force at the quarry, were far ahead with their work and there absence for a day will not be noticeable relative to the paving, since the asphalt layers will be able to continue working uninterrupted, except by the weather.

The big trucks were operated all night and as a result first street was literally filled with stone, admitting of the concrete laying being continued Friday morning. This will be continued and the work will soon be started east on Main street, where they will have a straight stretch of road until the Richmond work is completed.

Additional men were put to work Friday morning and the strikers will not be taken back. There is a dearth of workmen, more noticeable than ever, owing to tobacco cutting and the arrival in some sections of corn cutting. This furnishes a call to many from the city who are responding, preferring to be in the country.

### MY FRIENDS

Richmond, Ky., Sept. 24, '20.

I take this opportunity of notifying you that I have sold and delivered my hardware and implement business to Messrs. Cox and March, of this city. They will continue business at the old stand, and I can assure you that you will be well served and well treated by them.

I have been in business in this city under the firm name of D. B. Shackelford and Company for many years, and have made many friends, and I can assure you that I appreciate every one of them, and regret to sever my business connection with them in this particular line, but as I have other business that necessarily demands my attention, I am obliged to do so. I wish to thank you for the patronage you have extended me, and can assure you that I fully appreciate our pleasant business relations.

I wish to close up my business as soon as possible and you can assist me in doing so by remitting the amount of your account either by mail or by calling in person at my recent place of business.

Thanking you again, I am  
Yours very truly,

## U. S. MAINLAND LINES DETERMINED

Data Pertaining to Grass Area, Land and Water Provided by Work of Surveyors

(By Associated Press)

Washington, Sept. 24.—The farthest east, west, north and south points on the United States mainland have been determined by the United States Geological Survey which announces that the easternmost point is West Quoddy Head, near Eastport, Maine; the westernmost point, Cape Alva, Washington; the farthest north a small detached land area of northern Minnesota ending in latitude 49 degrees, 23 minutes and longitude 95 degrees and 9 minutes, the southernmost point, Cape Sable, Florida, while the Florida keys extend farther south.

Data determined and compiled by the Geological Survey contains some interesting facts not generally known. Some of these are:

The gross area of the United States is 3,026,789 square miles. The land area is 2,973,774 square miles.

The water area, exclusive of the Great Lakes, the Atlantic, the Pacific and the Gulf of Mexico, within the three-mile limit, is 53,015 square miles.

From the easternmost point, West Quoddy Head, due west to the Pacific Ocean the distance is 2,807 miles.

The shortest distance from Atlantic to Pacific, between points near Charleston, S. C., and San Diego, Cal., is 2,152 miles.

The Canadian boundary is 3,898 miles long.

The Mexican boundary is 1,744 miles long.

The Atlantic coast line is 5,560 miles long.

The Pacific coast line is 2,730 miles long.

The Gulf of Mexico coast line is 3,640 miles long.

Cuba, if transposed directly north, would extend from New York City to Indiana with Havana farther west than Cleveland.

The Panama Canal is due south of Pittsburgh, Pa.

Nome, Alaska, is farther west than Hawaii.

### DORMITORY VISITOR

HELD TO GRAND JURY

Frank Riddell, the young man apprehended near Berea, where it is asserted he was caught in one of the rooms of the dormitory for girls and brought here a few days ago, was held under bond of \$250 on two warrants, wherein he is charged with housebreaking. He was remanded to jail. Riddell was caught in the act, according to a number of students, of entering one of the rooms and explained his presence by stating he had been sent there by an electric light company which employed him to make an inspection. His case will be investigated by the grand jury.

A break in the price of coal is now forecast, as dealers have recalled men from the mines and operators are now seeking the markets.

The Green River Tobacco warehouse at Munsfordville has sued 19 farmers and Judge J. R. Layman will act as special judge to try the cases.

## Dye It Right! "Diamond Dyes"

## TAMPA MOTORMAN GETS OVER HIS TROUBLES

After Suffering Ten Year From Indigestion Emerson is Relieved Through Use of Tanlac

"I am certainly glad Tanlac came my way, for if I had been much longer finding something to help me I would simply have had to give up my job," said James N. Emerson, motorman for fourteen years with the Tampa Electric Company, and who lives at 2404 17th avenue, Tampa, Fla. "Some ten years ago," he continued, "I began having trouble with my stomach. I was going from bad to worse till four or five years ago when my condition became awful. Since that time I had not been able to eat anything without suffering from indigestion."

"After eating I would bloat up with gas until it was hard for me to breathe and I would have the worst kind of misery in the pit of

my stomach. My food seemed to do me no good and I became so weak, run down and nervous that I never felt like doing a day's work. In fact, many a day it was all I could do to operate my car. "When Tanlac was put on sale here in Tampa I bought a bottle and in three days after starting on it the gas had stopped forming on my stomach and I could eat anything without discomfort. I am now eating just anything I want and never have a pain or uncomfortable feeling afterwards. I am now feeling just splendid and my old-time strength and energy are rapidly returning. From experience I honestly believe that Tanlac is the best medicine sold for any sort of stomach trouble."

Tanlac is sold in Richmond by Stockton & Son; in Berea by the Welch Department Store; at College Hill by Ginter Bros.

When a Woman is Nervous—Worried

Most women neglect their health, and for this they pay the penalty. Any woman will find that neglect does not pay. A little more attention to health would brighten up her life. If she asks her neighbors she finds that Dr. Pierce's Favorite Prescription benefits a woman's whole system. It not only gets upon the troubles and weaknesses peculiar to women, but is an all-around tonic that braces the entire body, overcoming nervousness, sleeplessness, headaches, dizziness and a run-down condition.

All druggists. Liquid or tablet form. Send 10c to Dr. Pierce's Invalids' Hotel in Buffalo, N. Y., for trial package.

Lucinda Hensley, 12 year old girl, was run down and killed by a freight train near her home at Whitesburg. Again the ancient theory has been advanced regarding the cause of the explosion which caused the death of more than 30 people. A big parade in which many of the old veterans marched was a feature of the G. A. R. convention at Indianapolis. Kentucky convention of County Judges, which has been in session since Tuesday at Louisville, has come to a close.

Now you know why the Birds Sing Nervousness, bearing-down and stretching pains in the abdomen are avoided by the use of

MOTHER'S FRIEND according to the testimony of thousands of mothers who have used this time honored preparation. Mother's Friend soothes the fine net work of nerves beneath the skin, and thus its regular use, during the period, the muscles are made to expand more easily. Mother's Friend is used externally.

REPUBLICAN SENATOR BLOCKS SOLDIER PAPER (By Associated Press) Washington, Sept. 24—The right of Senator Edge, republican, of New Jersey, to participate in any investigation by the Senate campaign committee into the political activities of The Stars and Stripes, a soldier publication, was challenged today by Jos. Heffernan, secretary of the paper. Heffernan said that he had information that Edge was in "some scheme whatever it is, against us." He named his informer as the paper's employee, and said his information was that Edge conferred, recently with men interested in preventing the paper from obtaining advertising and mentioned the duPonts in connection.

Heffernan testified the Stars and Stripes was controlled by the Democratic National Committee and the American Legion Weekly, another soldier publication, was controlled by the Republican National Committee. He said Mrs. E. M. Parks, secretary to W. D. Jamison, director of finance for the Democratic National Committee, furnished \$48,000 for the Stars and Stripes.

STRIKERS AND OPERATORS ARE ANXIOUS TO RESUME Louisville, Sept. 24—The Times today says settlement of the strike of 5,000 coal miners in District 23, Western Kentucky, may be settled when the joint scale committee of the Western Kentucky Operators' Association and miners meet here today. The feeling seems to prevail that the men are anxious to return to work and the operators are doubly anxious owing to unfilled orders.

REPUBLICAN SENATOR BLOCKS SOLDIER PAPER (By Associated Press) Washington, Sept. 24—The right of Senator Edge, republican, of New Jersey, to participate in any investigation by the Senate campaign committee into the political activities of The Stars and Stripes, a soldier publication, was challenged today by Jos. Heffernan, secretary of the paper. Heffernan said that he had information that Edge was in "some scheme whatever it is, against us." He named his informer as the paper's employee, and said his information was that Edge conferred, recently with men interested in preventing the paper from obtaining advertising and mentioned the duPonts in connection.

Heffernan testified the Stars and Stripes was controlled by the Democratic National Committee and the American Legion Weekly, another soldier publication, was controlled by the Republican National Committee. He said Mrs. E. M. Parks, secretary to W. D. Jamison, director of finance for the Democratic National Committee, furnished \$48,000 for the Stars and Stripes.

STRIKERS AND OPERATORS ARE ANXIOUS TO RESUME Louisville, Sept. 24—The Times today says settlement of the strike of 5,000 coal miners in District 23, Western Kentucky, may be settled when the joint scale committee of the Western Kentucky Operators' Association and miners meet here today. The feeling seems to prevail that the men are anxious to return to work and the operators are doubly anxious owing to unfilled orders.

### LITTLEJOHN SHOWS GO SOUTH SUNDAY

Littlejohn's Fair Shows, here this week, by the way, the eleventh annual visit, in the way of entertainment, since the popular little man with the popular big shows, was expected to have been badly crippled as a result of having been deluged at Carlisle during the recent cloudburst. However, he came up smiling, and so do the patrons, since the aggregation of shows, in the first place, has that familiar characteristic feature, cleanliness, and there was more than expected. Littlejohn states that he is just getting "started again" after being washed out. The fact that there are no grafters or camp-followers adds to the quality of entertainment as well as the enjoyment of knowing you are again in the Littlejohn shows.

Richmond is the final Kentucky show place for him this season, since years and have always found that it the shows, closing the northern season here Saturday night, will be placed aboard a special train here Saturday night on the L. & N. railway, which Mr. Littlejohn has contracted for, and will set out for Newman, Ga., on Sunday morning. The fall and winter will be spent in the southland, the fair season just opening there.

### SUFFRAGE LEADER WILL VOTE FOR COX

Mrs. Robinson A. McDowell, Louisville, who, along with her husband, has been considered a prominent Republican and for the last 14 years active in the fight for woman suffrage in Kentucky, has announced her intention of voting for Governor Cox for president.

"I shall vote for Cox because he comes nearer standing for the league as I want it," she said. Although she has always been considered a Republican by her friends, Mrs. McDowell said that she has never worked specifically for either party.

"For so many years my work has been with both parties that I have absolutely no illusions left about either," she said in pointing out that she had been lobbying for a number of years at Frankfort in the interest of suffrage.

"How do you feel about the League of Nations," she was asked. "Well, we all want a League of Nations," she answered. "It is only a difference in phraseology that makes us either Republicans or Democrats in this particular issue."

### CABBAGE SNAKE FOUND BY COTTONBURG WOMAN

What is believed by him to be a cabbage snake of the poison variety, such as was in evidence about twelve years ago, and to which a number of deaths were attributed, was found by D. E. Taylor, of Cottonburg, in a head of cabbage. The snake was brought to this city and will in all probability be sent to Lexington for scientific inspection. The snake is said to have been about 12 inches in length and the thickness of a common thread. It is almost white in point of color and was very active for some time after being removed from the cabbage, being found while the vegetable was being prepared for a meal. Its discovery created such consternation that all cabbage now prepared is carefully inspected and there are some residents of the neighborhood who will not partake of this vegetable in any form. This is said to be the first one to be found for several years.

### BETTER LIVING AND WORKING CONDITIONS ON FARM

It takes 7,000 or 8,000 hours of labor a year to keep a farm of the average size up to its normal state of production.

If the farmer himself could work seven thousand hours a year, or if he and his wife together could provide these hours of actual labor, they would have the labor question settled, for average farms.

But the housewife nowadays has work enough of her own without taking on any additional burdens of farm work. The farmer himself, if he sleeps only eight hours out of the 24 would have less than six thousand hours in which to eat, work and plan his farm work and this calls for a full schedule of sixteen hours a day, an impossible year-round situation.

While the progressive farmer is using most everything in the way of improved machinery to save time and labor in his field work, he is coming to realize that there are many other ways to save work for himself and for every member of his family.

Electricity is the big factor in this sort of saving. It will light the house and barn with modern, safe lighting. It will run all the machines about the place that ordinarily are turned with a crank, it will pump water, for stock and for house use, saving, some farmers say, as much as two hours a day on this one item. It will sweep the house, heat the flat-iron, and run electric fans. It changes the character of living in any home, city or country, wherever this modern force is introduced. The farmer can have electricity easily, for he has only to buy one of the modern farm electric plants and go ahead enjoying complete electric service. Electric plant development has reached a high state of perfection. Some of the highest type plants are direct connected, with an air cooling engine using kerosene for fuel, representing the ideal in gas-engine construction for which engineers have long been striving.

## HOW DOCTORS TREAT COLDS AND THE FLU

First Step in Treatment Is a Brisk Purgative With Calomel, the Purified and Refined Calomel Tablets that are Nausealess, Safe and Sure.

Doctors have found by experience that no medicine for colds and influenza can be depended upon for full effectiveness until the liver is made thoroughly active. That is why the first step in the treatment is the new, nausealess calomel tablets called Calotabs, which are free from the sickening and weakening effects of the old style calomel. Doctors also point out the fact that an active liver may go a long way towards preventing influenza and is one of the most important factors in enabling the patient to successfully withstand an attack and ward off pneumonia.

One Calotab on the tongue at bed time with a swallow of water—that's all. No salts, no nausea nor the slightest interference with your eating, pleasure or work. Next morning your cold has vanished, your liver is active, your system is purified, and you are feeling fine, with a hearty appetite for breakfast. Druggists sell Calotabs only in original sealed packages, price, thirty-five cents. Your money will be cheerfully refunded if you do not find them delightful. (Adv.)

### TOO LATE WITH ROOMS. SOLDIERS GO ELSEWHERE

Stone Norman, secretary of the Home Service Station of the Red Cross, has been notified by the Federal Board for Vocational Training to release the rooms that had been for the vocational training students who were coming to the Normal School, on account of the rooms not being signed for in time. These 40 rooms were to be signed for on or before August 16, but he did not get as many until the 18th, which was too late, as the government had to place these students in other towns, therefore Mr. Norman asks the generous hearted and patriotic people of Richmond to release the rooms that have signed for the Vocational Training Students.

### WHAT FIRE MARSHAL SAYS

An assistant state fire marshal is said to have been spending some time in and about Richmond during the past few days. The city has been attracting considerable attention as a result of the series of mysterious fires. There was recently a state official here who reported this state of affairs existing in several parts of the country, and he reported they were spasmodic generally and the work of a crank.

### TOBACCO STICK PRICE

#### HIGHEST IN YEARS HERE

There is an unprecedented demand for tobacco sticks and the price is soaring, reaching the \$30 per 1,000 mark at present. As high as \$40 is being paid in some localities, it is reported. The quantity of tobacco is surprising and many find themselves without sufficient sticks with which to care for their crops. Some lumber companies are ordering sticks from saw mills and disposing of them here. This is the highest price, it is said, paid for sticks for years; however, there is a great demand.

Paris and Bourbon county officials are puzzled and worried over the alarming increase of petty thefts by youths of such tender years that it places them beyond the jurisdiction of the courts.

### Team Is Challenged

#### Before Organization

There has been a challenge sent in already to the Eastern Normal football team, even before the organization and it is known who the captain and manager will be, which indicates there will be demand for the sport during the coming fall and winter. The challenged will not be accepted for the reason that the team asking for the same is "too strong," being out of the class of the local team altogether. It is from a big professional college team, and it is not expected the Normal team will be able to cope with this calibre of players at all. But the invitation will be appreciated just the same, will be one of the clauses in the reply to the enthusiastic manager.

## Pure, Rich Blood Will Keep Your Body Vigorous and Healthy

When impurities creep into your blood the first symptoms are usually a loss of appetite, followed by a gradual lessening of energy, the system becomes weaker day by day, until you feel yourself on the verge of a breakdown. Nearly everybody needs a few bottles of S. S. S., the great vegetable blood remedy, to cleanse out all impurities about twice a year. It is an excellent idea to take this

precaution to keep the system in a vigorous condition so as to more easily resist disease to which every one is subject. S. S. S. is without an equal as a general tonic and system builder. It improves the appetite and gives new strength and vitality to both old and young. ## STATE PRIZE IS CLAIMED BY PIERATT

Madison County Man Makes Record For Prizes With Limited Number of Hogs

When H. C. Pieratt, living east of the city, presented his hogs at the state fair he was confronted with the "cream of the state," so to speak, but there was none that beat a grand champion sow, which took first prize in point of age, the first in senior champion and first in grand champion classes. Thus the blue ribbon of the state of Kentucky goes to the Pieratt drove of Madison county.

Mr. Pieratt was also receiver of the second prize for a boar hog. This animal had never before been beaten, although shown at many of the exhibitions of the state. As a result of the exhibitions thus far, the owner has won a record with four hogs, taking six blues, 12 champions and five out of possible six grand champions. This is an unexcelled record, it is said, for this number of hogs. The hog that was beaten this year was the grand champion last year and this is the first time that he had been beaten in eight exhibitions.

Mr. Pieratt, who is making a specialty of Poland China hogs, has been attracting wide attention as a result of the quality of stock he has been exhibiting and he contemplates having a herd next year that will compete with the best in the state, and another effort will be made for state fairs. The circular will reveal strikingly to the farmers of Kentucky Senator Harding's attitude on agriculture.

## HARDING FAVORS DOLLAR WHEAT

That Price Ample To Recompense Farmer He Told Senate—He Opposed Farm Loan

Louisville Ky., Sept. 24—The Democratic State Headquarters in Louisville is sending out to the rural communities in Kentucky a very striking circular relative to Senator Harding's advocacy of Dollar Wheat.

The significance of this circular is that it is of Republican origin.

It is a reproduction of a hand bill printed by the Farm Defense League of Ohio and circulated in Chicago prior to the Republican national convention by the supporters of various candidates for the nomination opposing Senator Warren G. Harding. The circulation of this document, therefore, will be marked by the unusual feature of a Democratic organization distributing Republican literature. The circular will reveal strikingly to the farmers of Kentucky Senator Harding's attitude on agriculture.

The question before the United States Senate at the time was the proposition to fix the price of wheat at \$2 per bushel. Senator Harding opposed this on the ground that \$1 per bushel was plenty for the farmer to get for his wheat. From the Congressional Record his own words on this subject were:

"In this latter day farming has become an occupation for profit; and I happen to know that under normal conditions, dollar wheat makes it a very profitable occupation in time of peace; and I say to the Senator from North Dakota that the knowing farmers of the country are buying land in Ohio at \$150 per acre for the very purpose of going into a commercial proposition of raising wheat profitably at \$1 per bushel."

Senator Harding on another occasion opposed the Federal Farm Loan Act legislation which the farmers of this country regard as the greatest boon ever offered to the rural communities. Senator Harding's words on this subject are:

"I will not assume to say that conditions in Ohio are altogether like those of other States in the Union, but I believe I can state an absolute truth when I say that there is no more need for a measure of this kind for the agriculturists of the state of Ohio than the government to step in and take charge of all our industrial and productive affairs in that state."

The Farm Defense League in the same circular called the attention of the convention to the statement made by Senator Harding's manager, H. M. Daugherty, that 15 or 20 men sitting around a table on the fourth day of the convention at 11 minutes after 2 a. m., would pick the presidential nominee. "This boast may well come true," said the officers of the

## PUBLIC RENTING

For the Year 1921

On Saturday, October 2, 1920, at 10 o'clock a. m., on the premises I will rent to the highest bidder my farm on the Otter Creek pike, two and one-half miles from Richmond, Ky., known as the Karr place, containing 244 acres, more or less. This farm will be rented as a whole and then in three tracts one of 50 acres, with modern dwellings, barns and all improvements; one of 190 acres, with about 13 acres for tobacco and 20 acres for corn; one tenant house and four acres. This is good grass land and has everlasting water. Terms made known on day of renting.

Farm Defense League, "unless you vote against Harding." Despite this warning, the boast became a reality and Harding, the foe of the farmer, is now the republican standard bearer.

Hardin's opposition to the Federal Farm Loan Act is of a piece with the attitude of Senators Lodge and Penrose, leaders whom he blindly follows, on the same question. Senator Lodge prophesied that the Farm Land Bank Act "is foredoomed to failure." Penrose warned that it would undermine the finances of the United States. If these men win in the November election and control the reins of the government, the administration of the Federal Farm Loan Act will be in the hands of its enemies and will be handled in such manner as to frustrate the needs of the farmer.

## HENDREN

Mr. Falton May's folks of Garrard county are visiting Mr. Wolford Agee. Misses Sadie Chandler and Verna Ray were week-end guests of Miss Stella Howard.

Mrs. Reva Hill, of Lancaster, is at the home of Mrs. Linda Sanders.

Mr. and Mrs. Raymond Howard and daughters, Golda and Lillian, spent Sunday with Mrs. Howard's sister, Mrs. Henderson Whitaker.

The many friends of Mrs. Linda Sanders are sorry to know that she is very ill.

Mr. Hobart Bellamy, brother of our teacher, visited the school Tuesday.

Rev. Lunsford, who is conducting a meeting at Salem, is spending the week with Mr. J. N. Hendren.

Little Evanetta Daily, youngest daughter of Mr. Burdett Daily, is in the hospital at Berea. She has undergone an operation for appendicitis.

There is said to be considerable oats in Madison county that will be lost as a result of the recent rains, owing to the inability to get the crop into barns or sheds, even after having been cut and shocked. One farmer in the vicinity of Franklin, near Waco, is said to have a crop of 465 acres in the field and he is preparing to feed the entire crop to his hogs, as a result of the rains. The grain is said to have rotted and rendered unfit for use.

The \$20,000 residence of Mr. and Mrs. William Carroll, Newcastle, was destroyed by fire.

## Decontrol of Grain Causes Prices To Rise

Vienna, Sept. 24—The partial decontrol of grain has sent prices up to 300 per cent above the official price. Bands of traders are walking through the rural districts making contracts for wheat at 3,000 crowns for 103 kilos (220 pounds) while the government price for the requisitioned grain

is 1,000 crowns the 100 kilos.

Last Friday morning about 9 o'clock when all members of the family were in the tobacco barn, the home of J. W. Portwood was burned. All household goods were destroyed.

Mr. and Mrs. Roy Schooler and family were week-end guests of Mr. and Mrs. Oscar Hendren.

## TAXES

"The County Tax Commissioner of each county shall keep his office open at the county seat for the purpose of assessing property at all reasonable times (except Sundays and legal holidays), from the first day of July to the thirty-first day of October, inclusive, of each year."—Chapter 40, Acts 1920.

Therefore, you are cordially invited to call and list your property before October 31, 1920.

## City Firemen Called Again

Late Thursday night the city firemen were called to the scene of the old gymnasium building, on the campus, as the result of fire again breaking out after a period of more than two weeks. It is claimed by some that the rubbish, much of which had been cleared away, was set fire. The firemen

drenched the ruins with water and hope the fire, which has been "extinguished" several times, will now stay put.

THE old tub and wash board are relics of by-gone days. The electric washer that Douglas and Simmons are demonstrating this week tells the reason why. 230 3
